

Reporting Adverse Events

VARES:

<https://vaers.hhs.gov/>

Your patients may come to you to report a vaccine reaction after receiving the COVID-19 vaccine elsewhere. Safety is the first priority when it comes to vaccines. Please report all vaccine adverse reactions to the Vaccine Adverse Event Reporting System (VAERS) in the timeliest fashion possible.

Reach out to the Immunization Program at AHS.VDHImmunizationProgram@vermont.gov with any questions.
